

Full-Stack Developer (f/m/d)

You are constantly looking for new technical challenges and want to make the eCommerce market fairer again with shopstory. Do you have an affinity for eCommerce, digital marketing trends and are rarely satisfied with the status quo?

With shopstory we have set ourselves the goal of counteracting the general trend and doing our best for more diversity in the eCommerce market. Every online shop deserves a fair chance to assert itself. You will get to know shopstory inside and out and then you will be an integral part of the further development of our product.

Your tasks:

- Implementation of new product functionalities (TypeScript, Node.js, GraphQL, React, NestJS, Material-UI)
- Working out new concepts and ideas together
- Responsible programming through code reviews and automated tests (Jest)
- Cooperation in the expansion of the software architecture and the evaluation of new technologies

Your profile:

- Experience in full stack development with JavaScript technologies
- Ideally, experience with the rest of our tech stack: React, Node.js, TypeScript, GraphQL, NestJS, MongoDB
- Enthusiasm for modern (web) technologies
- Good spoken and written skills in German or English
- Independent and result-oriented way of working, high willingness to learn and motivation

Your time with us:

- Varied tasks with room for initiative, independence and responsibility
- Start-up working atmosphere in an interdisciplinary team and flexible working hours
- Further employee benefits (e.g. prepaid card with budget for restaurant visits worth 4,40€ per workday)
- Selected trainings for continuous further education in addition to project work
- Compensation with appropriate qualifications: a gross monthly salary starting at €2,900
